

The product name 'eCOVEIL100CHT' in white text on a dark blue background.The product specifications '100 gsm, needle punched' in white text on a dark blue background.

# RECYCLED CARBON VEILS

In an ever faster moving world with raw materials rapidly becoming less available, we are increasingly focusing on new ways to re-enter Carbon fiber waste into the value chain. With our carbon veil product range, we found a way to re-life carbon fiber waste and hence reduce scrap levels generated from our carbon fiber conversion process.

- **ECO FRIENDLY**
- **COST SAVING**
- **WITHOUT CHEMICAL ADDITIVES**
- **ISOTROPIC STRUCTURE**

# RECYCLED CARBON VEILS

## ADVANTAGES IN COMPONENT MANUFACTURE

- INEXPENSIVE PRODUCTION
- HIGH DRAPEABILITY
- ISOTROPIC STRUCTURE
- GOOD SURFACE QUALITY
- WASTE PREVENTION

## MADE FROM 100% CARBON SHORT FIBRES

- FIBRE LENGTH 40-80MM
- ORIGINAL SIZING STILL INTACT
- PRODUCTION OF SINGLE GRADES POSSIBLE
- BATCH TRACEABILITY POSSIBLE

## PROPERTIES

- HIGH HOMOGENEITY
- BASIS WEIGHT TOLERANCE +/-10%
- ADJUSTABLE FIBRE ORIENTATION PROPORTIONS
- VARIABLE NEEDLING TYPE
